

BeautyCelebrity

Is there no stopping the allure of Kerry Washington, with her voluptuous lips and bright eyes? The face of L'Oréal is never seen with a lash out of place. Follow suit with Shevelle Rhule's tips.

Step 1: Face

Bobbi Brown Luminous Moisturizing Foundation (£26) creates the most luminous and healthy-looking glow, offering a finish that makes skin still look like skin. For your make-up to stay put throughout the day with minimum shine and basic all-round skin perfection, apply **Nouba Earth Powder** (£15). It glides on easily and radiates your face's natural beauty. Highlight your cheeks while keeping them subtle with **Pout Flush Blush** (£20). The creamy stick creates anything from a light sheen to a full blush.

Step 2: Eyes

Bold and bright is a key look this autumn, really bringing attention to your eyes. Use **Barry M Dazzle Dust** (£4.95) in bright blue, and blend with **Sleek Eye Dust** (£2.99), which looks radiant across the entire lid. To really open up your eyes, apply **YSL Éclat de Givre Eye Shadow** (£19) along the lower eyes. The unique formula transforms into a silky cream for an intense look. Line eyes with **Urban Decay 24/7 Glide-On Eye Pencil** (£9), which

doesn't fade and is waterproof too. Brows are kept in place with **MAC Brow Set** (£10). It can be used alone or over your eyebrow pencil for perfectly groomed eyebrows. Finish your eyes with two coats of **Prescriptives Here To Stay** (£16) – a fantastic 24-hour mascara.

Step 3: Lips

Before applying any form of lip colour, line lips with **Benefit D'finer D'liner** (£14.50). This invisible liner will define the shape of your lips and stop your lipstick from moving. Give your pout a natural touch with **Rimmel Lasting Finish** (£3.99) in Burning Desire, for lips as luscious as Kerry's.
